

Why The Festival

The Camas Paper Festival will be an occasion of twofold significance to the people of Eastern Clark County and the Pacific Northwest. First it will mark the celebration of an all year round industry, by those whose good fortune it is to work in a paper town. Second, it will be the beginning of an annual event, the purpose of which to bring home to the people of this section the high place the manufacture of paper holds in the economic life of the Northwest. That the paper industry offers the most efficient and least wasteful method of harvesting the vast forest resources of the Northwest, is a truth we hope to bring to the public mind. That the paper industry answers in a large measure the problem of forest conservation is a fact more fully realized by thoughtful persons as time goes on.

Like the Greeks of old who celebrated the fruits of the vineyards and the products of the fields, the gifts of nature that brought them life, the citizens of Camas are celebrating the gift of the forests that brings livelihood to our community through the manufacture of paper. Our good fortune is the good fortune of all our neighbors. We all share in the blessing. We ask you to come and celebrate with us the FESTIVAL TO PAPER.
